ACKNOWLEDGEMENT

At the end of my thesis, I would like to thank all those people who made this thesis possible and an enjoyable experience for me. First, I wish to express my sincere gratitude to my beloved family and to all lectures that has helped me to accomplish this thesis. Special thanks to my supervisor Tuan Haji Rahim Ibrahim who responsible to guide me to accomplish this thesis and not forgotten Captain Noor Apandi Osnin and Captain Mohd Naim B Fadzil who is helps me for the consultancy and accomplishment of this thesis.

A STUDY OF MARITIME SAFETY FOR INSHORE FISHERMAN AT KUALA TERENGGANU

ABSTRACT

This study aims to investigate, the safety of inshore fishermen in Kuala Terengganu. Safety is one important aspect that must be given priority, by inshore fishermen. Inshore fishermen are groups that carry out traditional activities. This study focuses on nine villages in the vicinity of Kuala Terengganu for the samples. Researcher distributed questionnaires to all inshore fishermen and interviewed each of the fishermen in the area of samples, as a means to collect information or data on the study. The researcher choose the area of Kuala Terengganu because, it nearest with him and many of inshore fishermen within this area. The researcher also preferred to previous studies as a reference in this study. At the end of the study, researcher decided that the safety of inshore fishermen in the vicinity of Kuala Terengganu is not guaranteed and should be given special attention by the responsible party.

KAJIAN MENGENAI TAHAP KESELAMATAN NELAYAN TEPI PANTAI DI KAWASAN SEKITAR KUALA TERENGGANU

ABSTRAK

Kajian ini adalah bertujuan untuk mengkaji, tahap keselamatan terhadap nelayan tepi pantai di kawasan Kuala Terengganu. Keselamatan merupakan salah satu aspek penting yang mesti diberi keutamaan, oleh nelayan. Nelayan tepi pantai merupakan golongan atau kelompok yang menjalankan kegiatan secara tradisional. Kajian ini memberi fokus kepada sembilan kampung di sekitar kawasan Kuala Terengganu untuk dijadikan sampel kajian. Pengkaji mengedar borang kaji selidik kepada setiap nelayan tepi pantai dan menemuramah setiap nelayan di dalam kawasan sampel yang telah ditetapkan, sebagai kaedah untuk mengumpul maklumat kajian. Pengkaji memilih kawasan sekitar Kuala Terengganu, kerana jarak yang dekat, dan sekitar Kuala Terengganu mempunyai ramai taburan nelayan tepi pantai. Pengkaji juga merujuk kepada kajian-kajian lepas sebagai rujukan dalam kajian ini. Di pengakhiran kajian ini, pengkaji memutuskan bahawa tahap keselamatan bagi nelayan tepi pantai di sekitar kawasan Kuala Terengganu, masih tidak terjamin dan mesti diberi perhatian yang khusus oleh pihak yang bertanggungjawab.
